ABSTRACT

The reporting booklet is part of the Census Data System (CDS) of the Management Information System for Occupational Education (MISOE); it contains reporting forms which collect data that describes student enrollment and staff and facility utilization. Applicable to any individual occupational education program area, the booklet does not contain terminal performance objectives (TERMOBS), but only duplicates the first section of each of the 17 reporting booklets prepared for the 20 individual occupational education program areas in which TERMOBS have been developed. CDS, one of two major subsystems of the integrated management information system, was developed to provide occupational education managers with comprehensive data on which to base rational mangement decisions. Essentially, CDS contains descriptive information systematically structured in a manner which allows it to be used as a business for sampling evaluative research studies. CDS collects and stores census data for all school systems offering occupational education programs, including all data formerly collected by the Annual Federal Report for Occupational Information, except followup data. (Author/AJ)
